Greetings to Our Dahlia Friends and Customers . . .

We take great pleasure in handing you our 22nd annual price list for 1960. We have added a number of new varieties and discarded some old ones. Please look them over and send us your order, and we will be pleased to serve you.

A New Dahlia for 1960

CARL G. EDDY, ID, 10-Inch Blooms On Good Stems

The color is mallow rose with striping and spots of spectrum red. A sport of Cherokee Brave and identical in every respect except the color. Two Certificates of Merit. As is characteristic with most variegated varieties, an all-rose flower will appear occasionally. Our origination.

Roots Only \$10.00

LARGE and MEDIUM FLOWERING VARIETIES

General Information

TERMS — CASH WITH ORDER, PLEASE.

PRICES ARE NET.

If you live in West Virginia, kindly include consumers' sales tax (2%) with your order.

PLEASE NOTE: Figures in parenthesis following the name and type of a variety indicate the size of the bloom as they grow for us. *All Dahlias marked with asterisks before the name are of European or Australian origination. We have imported them from the various countries in recent years.

Orders of \$3.00 or more are postpaid. For less than \$3.00, please add 40c for postage and packing.

PLEASE STATE SHIPPING DATE. All orders will be packed and all roots are guaranteed true to name and in growing condition. If unsatisfactory upon arrival, or if they fail to start in a reasonable time, return at once and they will be replaced. However, very early shipments are sent at customer's risk of freezing, drying or rotting. We are not responsible in any case for more than the purchase price.

May we suggest that if you are ordering more than three roots of a variety, will you kindly write us before sending in your order, to ascertain if we have them in stock. Almost every year there is a shortage of certain varieties.

WE SUGGEST THAT YOU SEND IN YOUR ORDER FOR DAHLIAS EARLY. All orders will be filled in rotation. We shall be glad to reserve your roots for you, and ship at any time that you desire.

Roots to be mailed March 1st to June 1st.

ONE FREE ROOT OF OUR SELECTION GIVEN WITH EACH ROOT ORDER. With a few exceptions, this has always been our policy, and we are glad to do it. This does not apply to plant or wholesale orders.

Our gardens have been state inspected and have been found to be free of dangerously injurious insects and plant diseases.

SPRAY YOUR DAHLIAS FOR BEST RESULTS. Leafhoppers are the principal offenders in our locality. Try spraying with D.D.T. or Methoxychlor every ten days after they come up for a while and see if you do not have better results with your dahlias. We used Methoxychlor for the past several seasons to control both leafhoppers and Japanese beetle, with excellent results. It also will control the Mexican bean beetle. It is much less poisonous than D.D.T. Follow instructions on the can.

To all we extend a cordial invitation to visit our gardens during the growing season and blooming period. The dahlias are usually at their best the first part of September.

Our gardens are located five miles east of Fairmont, one mile off State Route 73, on the Winfield Road at the village of Winfield.
